SECURITY & SAFETY

903.6

Video Surveillance - School Bus

The Board recognizes that the videotaping of students and drivers on board school buses can be useful in promoting safety and minimizing disputes. The Board also recognizes that the videotaping of students and drivers is a matter of sensitivity, therefore, the Board believes the use of video cameras on board school buses should be governed by strict policy guidelines and should only be carried out where circumstances have shown that it is necessary to ensure safety, order and discipline, including prevention of vandalism.

On board videotaping is to be conducted only for the purpose of promoting bus safety and discipline. Videotaping is not to be conducted for any other purpose.
