### Student Supplies for 2011 – 2012 School Year

Once again we are making a bulk purchase of school supplies. This way we can ensure that all necessary supplies are here at school, and we can make use of the special savings we get from suppliers because we are a school (up to 40%). **All students are expected to take part in this program.** The cost of supplies varies by grade level:

**Kindergarten - \$15.00**  
**Grade 1 to Grade 3 - \$40.00**  
**Grade 4 to Grade 7 - \$55.00**

This system works very well - our prices are well below retail and purchasing supplies through the school ensures that your child will not run out of necessary supplies through the year. Supplies fees are due by October 14th, 2011. We are aware that families with several children may find this one-time expense challenging - please let Mrs. Hackett in the office know if you need to spread the payment over more time.

Students will be expected to provide gym strip as outlined by their teacher in September.
